

How to open an eCommerce website and online revenue. Here's how to do it.

Today, more and more people are turning to the internet to make money as they feel the pressure of the impending loss of their jobs in a bad economy, or just lose patience with them during the workday.

Making money online seems to be a good alternative for people **who work from home**, be your own boss and want to set your own hours.

Ecommerce is a purchase, sale and distribution of goods and services through electronic communications and networks. These Internet sales are becoming more popular as consumers look to take advantage of the lowest prices many distributors and wholesalers. This trend will continue to rise in the buying and selling of performance expected in the coming years, a major change in the way we create purchases.

If you start the computer knowledge not much or no knowledge of programming an online business seem completely overwhelming. With an **ecommerce website builder can create an online business** a real possibility.

With the use of *Site Builder Ecommerce*, people hope, an online business does not need to worry about building an ecommerce site from scratch. You can create a new website and go in a very short period of time with little or no assistance from a programmer.

E-commerce website <http://www.1and1.com/> provides the tools to create your own website with a simple mouse click. In general, there are a number of different models to choose from, and all you have to do is content. You will be able to customize the choice of *colors, fonts, images, links, flash*, message boards and more, as well as add an *ecommerce shopping cart*. Many site builders of ecommerce are also equipped with *email, comments* on the search engines, *statistics, travel packages, web hosting, domain names* and multiple locations.
